### Submitter Info

<b>Comment:</b>	The former German Chancellor of Germany Gerhard Schroder sits on the board of the Nord Stream 2 energy company thats supplying the gas from Russia to Germany. So German will be getting 60-70 per cent of their gas energy and new pipeline from Russia , which in turn send billions to Russia. its not appropriate for Regulations against America, and its a very bad thing for NATO. EPA and CEQ, America should have to talk with Germany , not hurting American middle class. German should be getting Gas from America not Russia. *
