Kurt Haege, CEO of Vattenfall Europe Mining and Generation, Germany
- 10:45 – 12:00** **CSLF Project Presentations**
- Development of China’s Coalbed Methane Technology / Carbon Dioxide Sequestration Project**
Brent Lakeman, Alberta Research Council, Canada
- Anoxic Microbial Sequestration of Carbon Dioxide Present in Flue Gases to Methane/ Methanol/ Other Biomass**
R.R. Sonde, NTPC Ltd., India
- ARC Enhanced Coal-Bed Methane Recovery Project**
Brent Lakeman, Alberta Research Council, Canada
- Regional Opportunities for CO₂ Capture and Storage in China**
Robert Dahowski, Pacific Northwest National Laboratories, United States
- CANMET Energy Technology Centre R&D Oxyfuel Combustion for CO₂ Capture**
Anne-Marie Thompson, CANMET Energy Technology Centre, Canada

CASTOR

Pierre Le Thiez, Institut Français du Pétrole (IFP), France

12:00 – 13:30 *Lunch*

13:30 – 15:00 **CSLF Project Presentations (continued)**

CO₂ Capture Project - Phase 2

Gardiner Hill, BP, United Kingdom

CO₂ GeoNet

Nick Riley, British Geological Survey, United Kingdom

CO₂ Separation from Pressurized Gas Stream

Shingo Kazama, Research Institute of Innovative Technology for the Earth (RITE), Japan

CO₂ Sink

Günter Borm, GeoForschungsZentrum Potsdam, Germany

CO₂STORE

Tore Andreas Torp, Statoil, Norway

Demonstration of Capture, Injection and Geological Sequestration of CO₂ in Basalt Formations of India

R.R. Sonde, NTPC Ltd., India

ENCAP

Lars Stromberg, Vattenfall, Sweden

15:00 – 15:30 *Coffee/Tea*

15:30 – 16:00 **Technical Summary of the IPCC Special Report on CCS**
