Project Life Cycle

RRF Issues

# Considerations on Regulatory Issues

## LRF Issues

- Legislative, regulatory and administrative framework which is soundly based and publicly stated
- Provide certainty and predictability for all stakeholders
- Fosters carbon dioxide capture and storage in a cost effective and environmentally responsible manner
- Consistent both within national borders and internationally, but respects the sovereignty of governments

# Summary

LRF Issues

- **Regulatory work completed**
- **Thankyou to all members for input on regulatory, legal and financial issues**
