

Carbon Sequestration Leadership Forum

***Ministerial Discussion and Conclusions on
CSLF Projects and CSLF Technology
Roadmap***

**Mr. Oluf Ulseth
State Secretary, Ministry of Petroleum and Energy
(Norway)**

CSLF Technical Group

- **Conclusions on Technical Group Activities**
 - **Technical and Policy Groups reached consensus on the Technology Roadmap with minor modifications**
 - **Technical and Policy Groups reached consensus on the 10 Projects**

Proposed Further Work

- **CSLF Technology Roadmap is intended to be:**
 - Basis for common understanding on technology status, challenges and needed collective action within CSLF ahead
 - Continuous Process: The Roadmap is a living document and will evolve
- **Next steps:**
 - Focus further work in following areas:
 - **cost reduction of CO₂ capture and logistics**
 - **enhance reliability and confidence of storage**
 - **mapping of storage potential and possibilities**
 - Identification of key gaps (prioritization)
 - Integrate work on project recommendations with roadmap revisions
 - New opportunities: establish procedures for project initiation
