*CSLF Technical Group Meeting
Report by the Secretariat*

John Panek, Deputy Director, CSLF Secretariat

1-2 April 2009

San Francisco Policy Group Meeting

- San Francisco, CA, June 28–30, 2009
- Venue hotel: Hilton San Francisco — Financial District
- Task Force meetings, June 28th
- Business meeting, June 29–30th
- Welcome Reception, Sunday evening, June 28th
- Dinner event, June 29th
- <http://www.cslforum.org/meetings/sanfrancisco2009/premeeting.html>

San Francisco Policy Group Meeting

- Approve papers for the Ministerial Conference
- Finalize agenda for the Ministerial Conference
- Discuss emerging economy projects with the Asian Development Bank
- Review status of the CSLF/IEA recommendations to the G8
- Approve new CSLF Technology Roadmap
- Agree on substance of the Ministerial Communiqué
- Accept proposed CSLF projects
- Consider New Zealand's CSLF application
- Elect new CSLF officers
- Approve new CSLF Strategic Plan

London Ministerial Meeting

- 11th Oct. – Task Force Meetings
- 12th Oct. am - Policy Group Meeting
- 12th Oct. am - Technical Group Meeting
- 12th Oct. pm - Stakeholder Forum
- 12th Oct. evening - Ministerial Dinner
- 13th Oct. - Ministerial Conference
- 13th Oct. - Press Conference
- 13th Oct. evening - Cultural Event –trip to Millennium Eye
- 14th Oct. - Joint Policy and Technical Group Meeting
- <http://www.cslforum.org/meetings/london2009/premeeting.html>

CSLF Workshops

- CSLF Capacity Building in Emerging Economies Workshops
 - 6th Capacity Building in Emerging Economies Workshop
Washington, DC, USA, November 16–20, 2008
 - 5th Capacity Building in Emerging Economies Workshop
Salvador, Brazil, November 16–20, 2008
 - 4th Capacity Building in Emerging Economies Workshop
Mexico City, Mexico, July 9–10, 2008
 - 3rd Capacity Building in Emerging Economies Workshop
Al Khobar, Saudi Arabia, January 28–29, 2008
 - 2nd Capacity Building in Emerging Economies Workshop
Porto Alegre, Brazil, October 18–19, 2007
 - Capacity Building in Emerging Economies Workshop
Pittsburgh, USA, May 7–11, 2007

A Global Response to the Challenge of Climate Change

The Carbon Sequestration Leadership Forum is an international initiative to develop affordable technologies to separate and securely store carbon dioxide produced by energy facilities, and reduce its potential impacts on global climate change.

...and in the News

March 22, 2009 (United Kingdom)
 Islywn MP Don Touhig says technology developed in Wales provides an opportunity to use coal while minimising carbon dioxide emissions. The government said the UK would be one of the first countries to develop carbon capture and storage technology. [More](#)

March 21, 2009 (Netherlands)
 E.ON Benelux and Rotterdam Climate Initiative (RCI) intend to provide E.ON's power station in Maasvlakte with a carbon capture and storage system to cope with the environmentally harmful carbon dioxide emitted. [More](#)

Carbon Capture and Sequestration

Coal plant emissions can be cut - German lobby
Forbes - March 18
Modern power plant technology will be able to curb carbon dioxide emissions from German hard coal-fired power stations by 81 percent by 2050, a study from the country's coal importers association said.

Government of Alberta: Alberta continues to explore cleaner energy ...
Trading Markets (press release) - March 18
Alberta is hosting demonstration of deep underground coal gasification - the first such project in North America, and the deepest underground coal gasification ever conducted in the world. Swan Hills Synfuels expects the project to demonstrate the ability to manufacture environmentally clean synthetic gas from Alberta's vast, deep, coal resources, with the future potential of utilizing the coal seams for carbon capture and storage.
