DRAFT
CARBON SEQUESTRATION LEADERSHIP FORUM
VISION STATEMENT

Note by the Secretariat

Background

At the inaugural meeting on 25 June 2003, the Technical Group of the Carbon Sequestration Leadership Forum decided that it was important to develop a roadmap of future technical activities required to achieve the goals of the CSLF. Accordingly, the Chairman of the Technical Group instructed the Secretariat to prepare a Draft Vision Statement to help guide the development of the Technical Roadmap. This Draft Vision Statement is being circulated for review to CSLF Members with this Note.

Action Requested

The Policy Group and the Technical Group are requested to approve the Draft Vision Statement.

Conclusions

The Policy Group is invited to note in the Minutes of its meeting of 22 January 2004 that:

“The Policy Group approved as Final the Draft Vision Statement.”

DRAFT
Vision Statement

The Carbon Sequestration Leadership Forum (CSLF) will facilitate the development and deployment of technologies for the separation, capture, transportation and storage of carbon dioxide. The CSLF will advance technological capacity by collaborative efforts to address key technical, economic, and environmental obstacles. The CSLF will also promote awareness and champion legal, regulatory, financial, and institutional environments conducive to such technologies. By the year 2013, collaborative projects will be completed in many regions of the world, demonstrating the safety and cost-effectiveness of geologic carbon sequestration.
