Welcome to the website of the Carbon Sequestration Leadership Forum (CSLF). Here you can find information about the CSLF and its activities, including endorsed projects, papers and presentations relevant to carbon sequestration, and links to resources of interest to the sequestration community, including government agencies and programs of CSLF Members, multilateral organizations, and NGOs.

carbon sequestration leadership forum

What's New

- The China Coalbed Methane Technology/CO₂ Sequestration Project has been completed and a [final report](#) is available on the [Projects](#) page.
- The CO₂STORE project has been completed, and a [link to its "Best Practices" manual](#) is available on the [Projects](#) page.
- Presentations from the recent CSLF Capacity Building in Emerging Economies Workshop are now online. Click [here](#) or visit the [Workshops](#) page to view them.
- A [photo page](#) from the Paris CSLF meeting is now online.
- The CSLF Public Meeting Place (PuMP), an online discussion forum, is now open. Click [here](#) to join in.
- Shell and Statoil have announced plans to develop the world's largest project using carbon dioxide (CO₂) for enhanced oil recovery (EOR) offshore. [Read More](#)
- The French Petroleum Institute (IFP), France's Environment and Energy Management Agency (ADEME), and France's Bureau of Geological and Mining Research (BRGM) are sponsoring the [2nd International Symposium on Capture and Geologic Storage of CO₂](#), which will take place in Paris on October 4-5, 2007.
- Petróleo Brasileiro SA (Petrobras) and the Pontifical Catholic University of Rio Grande do Sul are sponsoring a combined Capacity Building Workshop and Workshop on Perspectives for Near-Term CCS Deployment in Brazil, which will take place in Porto Alegre, Brazil, on October 17-19, 2007.
- A privately-sponsored conference addressing the opportunities and business potential of the Carbon Capture and Storage industry will be held in Sydney, Australia, on October 29-30, 2007. Further information, including a registration form, is available at the [conference website](#).
- A report on *Legal Aspects of Storing CO₂* has been published by the International Energy Agency. Information on the document, and how to purchase a copy, is available at the [IEA website](#).
- IEA has published a summary report on the workshop on issues identification of *Near-Term Opportunities of Carbon Capture and Storage*. The workshop took place in August 2006 in San Francisco, California. Workshop was co-sponsored by the International Energy Agency and Carbon Sequestration Leadership Forum.

CSLF Website

- **Collaborative effort between the CSLF Secretariat and the Communications Task Force**
- **Redesign launched Feb. 2009**

CSLF Home Page

Key Features

- **Fresh appearance**
- **More user friendly**
- **Links to upcoming meetings**
- **Recent articles about CCS from world news sources**

Meetings/Workshops Page

Key Features

- **Information about Past and Future:**
 - **CSLF Meetings**
 - **CSLF Workshops**
 - **CSLF Task Force Meetings**

CSLF Projects Page

Key Features

- **Details about all 20 CSLF-recognized projects**
- **IEA GHG's Database of Worldwide CCS RD&D Projects**
- **CCS Integrated Projects Database (compiled by CSLF Secretariat)**

Publications

Key Features

- **CSLF Background Documents**
- **Task Force Final Reports**
- **SPIR Reports**
- **Communications and Outreach Updates from Members**
- **CCS Publications by Other Organizations**

About the CSLF Page

Key Features

- **Links to CSLF Member pages**
- **CSLF Charter**
- **CSLF Terms of Reference**
- **CSLF Technology Roadmap**
- **CSLF Membership**
- **CSLF Stakeholders**

CSLF News Page

Key Features

- ***CSLF NEWS is an electronic news service providing links to news articles from around the world related to CCS technology***
- **Daily summaries of global CCS news articles**

CSLF Website

- More user friendly
 - Fresh appearance
 - Continuous updates of CCS developments around the globe
 - CSLF e-mail alerts
 - Identify the CSLF as “*A Global Response to the Challenge of Climate Change*”

CSLF Home Page

The screenshot shows the CSLF home page with the following elements:

- Header:** Logo for "carbon sequestration leadership forum" on the left, a search bar with a "SEARCH" button on the right.
- Navigation:** Five buttons: "Home", "About the CSLF", "Organization", "Get Involved", and "Contact Us".
- Main Content Area:**
 - Left side: A large image of Earth with the text "A Global Response to the Challenge of Climate Change".
 - Right side: A grid of flags (Germany, Australia, China, UK) and a text box stating: "The Carbon Sequestration Leadership Forum is an international initiative to develop affordable technologies to separate and securely store carbon dioxide produced by energy facilities, and reduce its potential impacts on global climate change."
- Left Sidebar:** A vertical menu with links: "Meetings/Workshops", "Projects", "Publications", and "Press Room".
- Right Sidebar:** A box titled "Upcoming Events" containing:
 - CSLF Policy Group Meeting**: San Francisco, CA, USA, June 29-30, 2009. [Learn More](#)
 - CSLF Ministerial Meeting**: London, United Kingdom, October 12-14, 2009. [Learn More](#)
- Bottom Section:** A box titled "...and in the News" with two news items:
 - April 8, 2009 (France)**: "The world's first retrofit of a power plant with carbon capture and storage technology will begin operating this month in the south of France. At a power plant at Lacq, energy company Total has upgraded an existing gas-fired boiler with CCS technology - a crucial step towards reducing carbon emissions from fossil-fuel power plants worldwide." [More](#)
 - April 8, 2009 (Canada)**: "A consortium led by Enbridge Inc. said it is ready to start a test project for injecting carbon dioxide from industrial operations into briny underground water reservoirs in Alberta." [More](#)
