

# Action Items from Technical Group Meeting

John Panek  
CSLF Secretariat

# Action Items from Technical Group Meeting

- **Norway:** Provide correction to Item 12 in Rome Meeting Minutes
- **South Africa:** Provide SACCCS final report concerning impacts of CCS on South African national priorities beyond climate change to the CSLF
- **UK:** Send Secretariat link to Needs Assessment Report

# Action Items from Technical Group Meeting

- **Technical Group Chair:** Recommend to Policy Group that CSLF recognize the following projects
  - **MRCSP Development Phase Project**
  - **Kemper County Energy Facility**
  - **SECARB Phase III Anthropogenic Test and Plant Barry CCS Project**

# Action Items from Technical Group Meeting

- **Technical Group Chair:** Recommend that Policy Group a new Task Force: Policy, Legal and Regulatory Challenges in the Transitioning from CO<sub>2</sub> EOR to CCS
- **China:** Provide link to Chinese Report on CO<sub>2</sub> Utilization

# Action Items from Technical Group Meeting

- **Canada:** Create new task force to review CO<sub>2</sub> Storage Capacity in Saline Aquifers
  - Members: Canada (Bachu) , France (Bonijoly), USA (TBD), and Australia (TBD)
- **Technical Group:** Form review group to look at unaddressed items in action plan
  - #3 - Energy Penalty Reduction: UK (Sharman) to discuss with DECC
  - #4 - CCS with Industrial Emissions Sources: South Africa (SurrIDGE) lead with support by USA and IEAGHG

# Action Items from Technical Group Meeting

- #5 - CO<sub>2</sub> Compression and Transport: Japan to discuss with METI
- #8 - Competition of CCS with Other Resources: France (Bonijoly) lead
- #9 - Lifecycle Assessment and Environmental Footprint of CCS: Norway (Eide) lead, supported by USA and IEGHG
- #11 - Carbon Neutral / Carbon Negative CCS: UK (Sharman) to discuss with DECC and IEAGHG

# Consensus Items from Technical Group Meeting

- Consensus: CO<sub>2</sub> Utilization Options Task Force has concluded its work
- Consensus: Technical Challenges for Conversion of CO<sub>2</sub> EOR to CCS Task Force has concluded its work
- Consensus: Technology Opportunities and Gaps Task Force has concluded its work
- Consensus: Task Force for Standards for Geologic Storage and Monitoring of CO<sub>2</sub> will continue and work toward creating a web-based system

# Consensus Items from Technical Group Meeting

- Consensus: Korea to host next Technical Group meeting March 24-27, 2014
