

## *Technical Group's Risk Assessment Task Force*

- **Initiated at London (Nov 2006)**
  - Charter: Examine risk-assessment standards, procedures, and research activities relevant to unique risks associated with the injection and long-term storage of CO<sub>2</sub>
- **Phase I report complete (fall 2009) (CSLF-T-2009-04)**
  - Multiple potential impacts considered
  - Recognized the link between risk (TG) and liability (PG)
  - Joint task force on risk-liability proposed at Warsaw (fall 2010)
- **Phase II initiated fall 2010**
  - Activities related to risk-liability include overviews on:
    - Enhanced Oil Recovery
    - Project phases (injection, post-closure, long-term)
- **Proposal from Secretariat for consideration by Joint Task Force (tab 20)**

*Concept Paper for Joint PG–TG Task Force  
on Risk and Liability (tab 20)*

**Assessment for Geologic Storage of Carbon Dioxide:  
A Proposed Work Plan for the CSLF Proposed**

1. Establish CSLF Risk and Liability Task Force composed of representatives from PG Financing Task Force and TG RATF
2. Perform analyses including (a) a critical review of prior work on liability, and (b) a comparison of liability frameworks that have so far been established
3. Interview a sample of key experts from the different disciplines to identify their perspectives on risk, damages and liability. Evaluate the similarities and differences among these stakeholders
4. Conduct facilitated workshops to identify gaps and methods to address
5. Propose a path forward (phase II) to the PG and TG (joint meeting 2012)
