*“The sustainability of the PET we buy is of paramount importance to us. Suppliers who account for their emissions in a credible way will present a fundamentally more attractive proposition in relation to their rivals.”*

Alison Rothnie, Britvic Plc

*“CCS on industrial plants is going to be a critical part of the global effort to prevent serious climate change. Teesside is in the right place, at the right time, to get ahead of the curve.”*

Sir David King, UK’s Special Representative for Climate Change
