United Kingdom:	Suk Yee Lam, Philip Sharman
United States:	Mark Ackiewicz*

CSLF Secretariat: John Panek, Richard Lynch

Observers

IEA GHG:	Tim Dixon
Norway:	Lars Ingolf Eide

* Task Force member

Christopher Consoli chaired the meeting in place of Task Force Chairman Richard Aldous of Australia, who could not be present.

In early April, Dr. Aldous had distributed the draft Phase 1 Report to task force members for review, with comments requested by early May. Task force members had been asked to focus on three key points, including potential enhancements, availability of more information, and the key messages of the document. Additional input from the CSLF for oxyfuel and biomass technologies was also requested. There was consensus among task force members and observers present that the Phase 1 Report can move to final review after comments received in May are incorporated. Dr. Consoli reported that the task force is on track for completion of its Phase 1 Report before the upcoming CSLF Ministerial Meeting in November.

Dr. Consoli thanked the attendees and adjourned the meeting.
