Priority Actions: 2020

- Recommendation 1: CO2 Capture Technologies in Power Generation
- Recommendation 2: CO2 Capture in Industrial Sector
- Recommendation 3: CO2 Transport
- Recommendation 4: Large-Scale CO2 Storage
- Recommendation 5: Monitoring and Mitigation/Remediation
- Recommendation 6: Understanding the Storage Reservoirs
- Recommendation 7: Infrastructure
- Recommendation 8: CO2 Utilization

Capture

Transport

Storage

Infrastructure & Integrated Utilization

ACTION ITEMS from PIRT

6. PIRT will form new Working Group to examine data received concerning TRM Priorities

Priority 1: CO₂ Capture Technologies: Norway lead

Priority 2: CO₂ Capture in Industrial Sector: South Africa lead, U.K. support

Priority 3: CO₂ Transport: Australia lead

Priority 4: Large-Scale CO₂ Storage: Japan and France leads

Priority 5a: Monitoring: U.S.A. and France leads

Priority 5b: Mitigation/Remediation: E.C. lead

ACTION ITEMS from PIRT

6. PIRT will form new Working Group to examine data received concerning TRM Priorities

Priority 6: Understanding Storage Reservoirs: France lead

Priority 7: Infrastructure / CCS Chain: U.K.lead
(tentative, pending confirmation)

Priority 8a: CO₂ Utilization – Non EOR: France lead
(tentative, pending confirmation)

Priority 8b: CO₂ Utilization – EOR: Saudi Arabia
(tentative, pending confirmation)

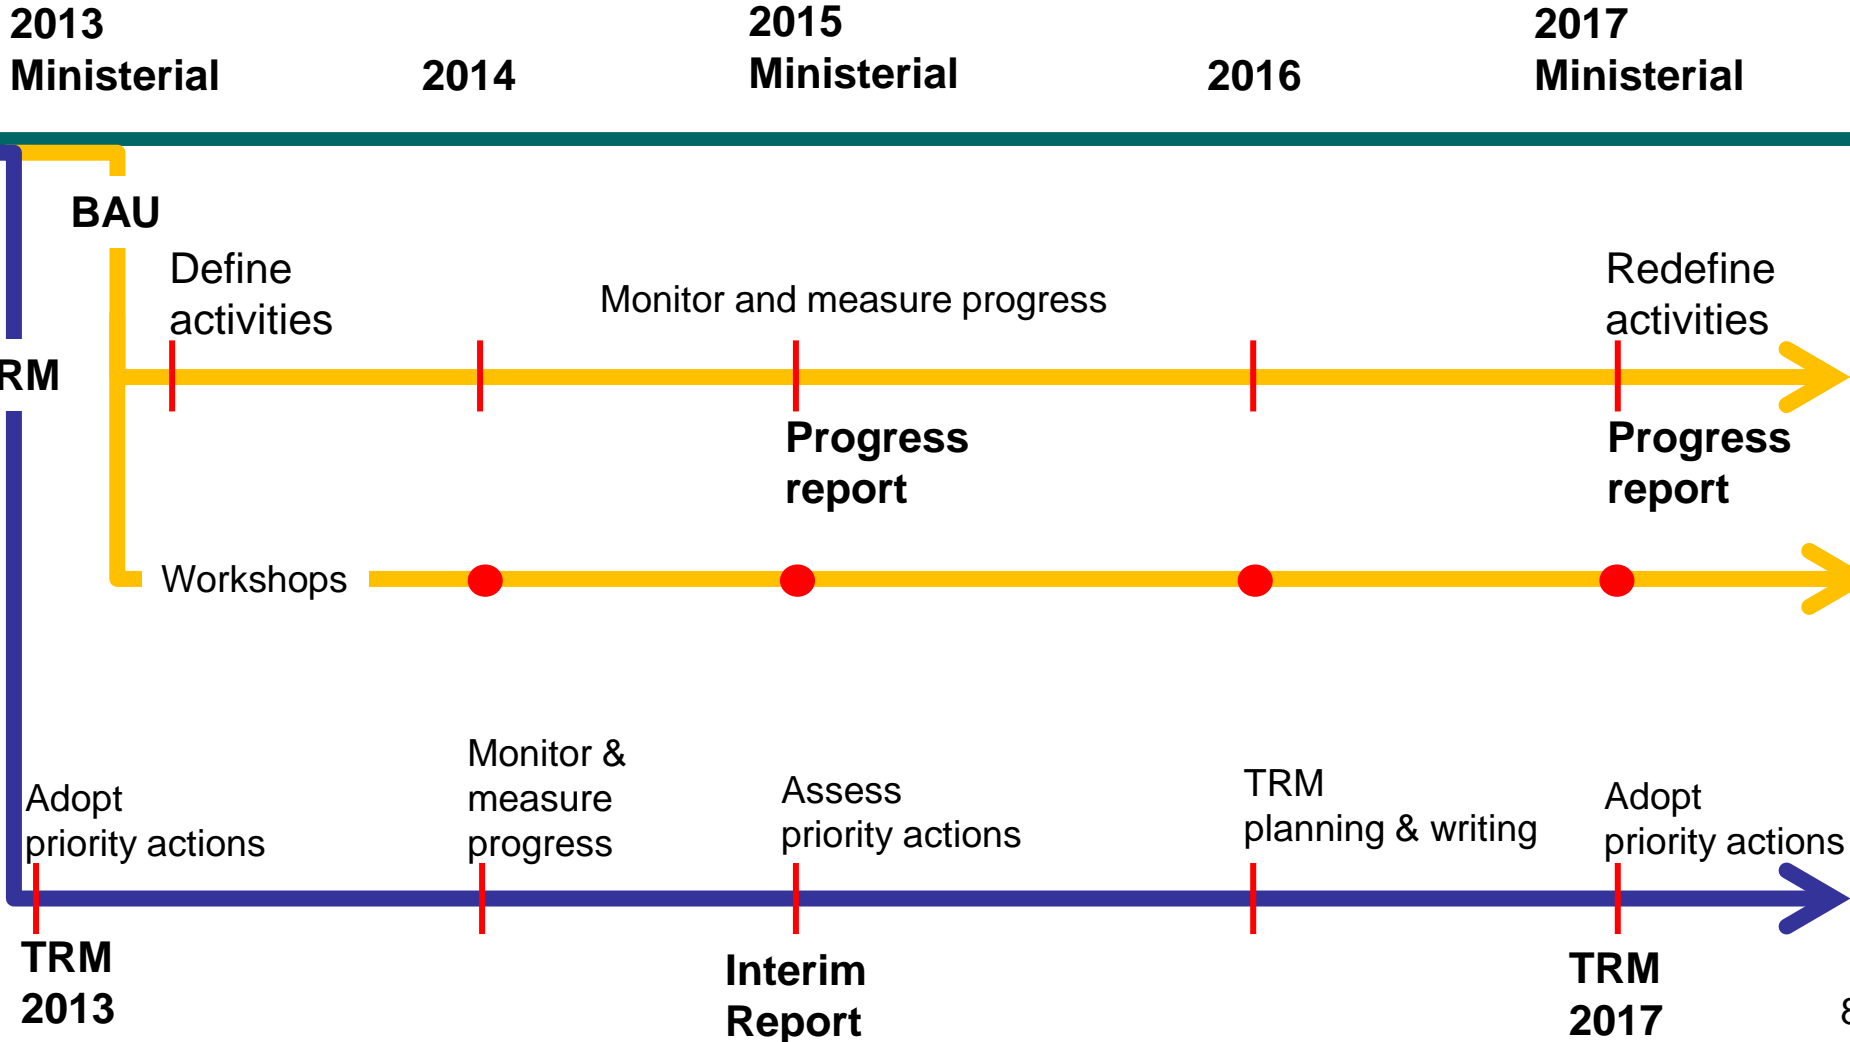

PIRT Two Functions (addressing Item12)

Business as Usual	New Activities from Technical Roadmap (TRM)
<ul style="list-style-type: none">• Project recognition• Project monitoring<ul style="list-style-type: none">• Workshop	<ul style="list-style-type: none">• Collaboration with CCS organisations• Monitoring TRM priority actions<ul style="list-style-type: none">• Summarise CCS progress• TRM publication
