

The Global CCS Institute: Membership information

Andrew Purvis, General Manager – Europe, Middle East & Africa

THE CLIMATE CHALLENGE

THE INSTITUTE IS COMMITTED TO THE CHALLENGE

Authoritative knowledge sharing

- 1.1 Drive knowledge transfer
- 1.2 Build on our world-leading CCS knowledge base
- 1.3 Optimise global collaboration and dissemination of high quality information

OUR MISSION

To accelerate the development, demonstration and deployment of CCS globally

Fact-based influential advice and advocacy

- 2.1 Improve public awareness and understanding of CCS
- 2.2 Position CCS as a key low–carbon technology
- 2.3 Equip Members to make better informed decisions

Create favourable conditions to implement CCS

- 3.1 Help develop supportive policies, standards and frameworks
- 3.2 Encourage collaboration on business cases
- 3.3 Develop enabling capabilities

MEMBER BENEFITS: 'MOVING THE NEEDLE' ON CCS

A strong, independent and influential champion for CCS, operating across the globe:

- collective voice for the CCS community
- leveraging power of a collective Membership organisation that can deliver and lift the profile of CCS
- demonstrated commitment and recognition as part of a global alliance aiming to decarbonise fossil fuels
- build political and public awareness and acceptance
- regional and international representation including through key international climate change and energy security fora
- promotion of CCS and supportive policy architecture on an as equal basis with other low carbon technologies.

MEMBER BENEFITS: 'MOVING THE NEEDLE' ON CCS

CCS expertise, knowledge and initiatives:

- a range of CCS publications including the Global Status of CCS report, CCS events and capacity development opportunities
- enhanced decision making and leverage through the Institute's convening power
- access to international thought leadership, events and commentary on CCS
- global network of proactive governments, industry and decision makers with CCS experience and expertise
- access to a sophisticated global online platform for the promotion and showcasing of CCS activities and developments.

COLLABORATION IN THE CCS COMMUNITY – INTERNATIONAL

Global CCS Institute

Giodai CC3 institute	
 Key characteristics CCS sole focus Global footprint and networks Very broad membership base – strong convening power World leading knowledge sharing platform 	Focus ■ Large-scale demonstration projects ■ Champion role of CCS (reduce emissions and energy security) ■ Policy, legal and regulatory ■ Public awareness and understanding
IEA	IEAGHG
Focus: (clean) energy analysis and advice Our collaboration: expert input on CCS status, project linkages and specific issues; joint work and events on selected topics Future: ongoing collaboration important for CCS advancement in broader energy context	Focus: research into technologies to reduce emissions from fossil fuels Our collaboration: continued funding to conduct technical studies, GHGT's and Summer Schools Future: collaboration efforts to be reviewed in 2014
CSLF	CCUS Action Group
Focus: an intergovernmental forum to accelerate CCS RD&D and improve CCS technologies for deployment Our collaboration: support capacity development fund and contribute to thematic groups and events Future: continue support, focus on knowledge sharing	Focus: making recommendations to clean energy ministers Our collaboration: secretariat services (shared with the IEA) as well as expert input into plans and recommendations Future: continue support, provide CCS status updates

The Global Status of CCS report

Recommended assets for you to use

- Our flagship report: The Global Status of CCS 2013 was launched in October, interim update in February 2014
- Over 600 publications across a variety of topics on CCS policy, projects and technology
- Over 600 individual insights from experts in CCS
- Dozens of webinars that enable online engagement
- New online platforms such as
 - Decarboni.se the go to place for solutions to climate change
 - CO₂degrees an education resource coming soon
