

# Proposed Implementation of CSLF Action Plan

Report by the CSLF Secretariat

Carbon Sequestration Leadership Forum  
Technical Group Meeting  
14–15 November 2006  
London, United Kingdom

# Background

- Strategic Plan proposed at April 2006 Delhi meeting, adopted in May 2006.
- Emphasizes:
  - technology development and deployment,
  - capacity building,
  - public acceptability and awareness,
  - stakeholder involvement, and
  - collaboration.
- Action Plan focuses on key strategies and actions in each area.

# Action Plan

## Policy Group

- Policy and Legal Framework
- Capacity Building
- Public Awareness & Acceptability
- Involve Stakeholders
- Collaboration with Other International Organizations

## Technical Group

- CCS Technology Development and Deployment
  - Research and development
  - Collaborative projects
  - Technical support for policy development

# Action Plan

Strategy	Responsibility
<b>1. CCS Technology Development and Deployment</b> Research and development Collaborative projects Technical support for policy development	Technical Group
<b>2. Policy and Legal Framework</b>	Policy Group
<b>3. Capacity Building</b>	Policy Group
<b>4. Public Awareness &amp; Acceptability</b>	Policy Group
<b>5. Involve Stakeholders</b>	Policy Group
<b>6. Collaboration with Other International Organizations</b>	Policy Group

# Key Outputs

## Research and Development

- 1. Key definitions for CCS identified and disseminated (2007).
- 2. Technology roadmap for each area, include links with Member roadmaps (2006–09).
- 3. Identification of key obstacles to achieve improved technological capability (2006–07).

## Key Outputs

### Collaborative Projects

- 1. Collaborative RD&D projects that reflect Members' priorities (2006 and continuing).
- 2. Guidelines for collaborations and reporting of results (2006).
- 3. Collaborative RD&D projects reviewed annually (2006 and continuing).
- 4. Members provide short-term opportunities for international collaboration (e.g. EOR) (2006–07).
- 5. Members provide information on full-scale demonstration project opportunities for international collaboration.
- 6. Recommendations for risk assessment standards and procedures.

## Key Outputs

### Technical Support for Policy Development

- 1. Key definitions for CCS identified and disseminated (2006–07).
- 2. Recommendations for standard methodologies to establish baselines to assess CCS projects (2006–07).
- 3. Recommendations for MMV system guidelines to consider international work (2006–07).
- 4. Capacity estimation methodologies developed (2007–09).
