

Report from Secretariat

Carbon Sequestration Leadership Forum
Technical Group Meeting
14–15 November 2006
London, United Kingdom

Overview of Secretariat Activities

- Updates to the CSLF Website
- Stakeholder Registry
- Proposed Implementation of the CSLF Action Plan
- Discussion Forum (Blog)
- CSLF Projects Activity

Proposed Implementation of CSLF Action Plan

- Strategic Plan proposed at April 2006 Delhi meeting, adopted May 2006.
- Executive Committee directed Secretariat to carry out implementation through a quarterly report.
- Plan to be presented in more detail later in Agenda item #11.

Updates to CSLF Website

- Technical Group Meeting, London, November 2006
- Policy and Technical Group Meetings, Paris, April 2007
- IEA-CSLF Workshop on Near-term Opportunities for Carbon Capture and Storage, San Francisco, August 2006
- IEA-CSLF Workshop on Legal Aspects of Storing CO₂, Paris, October 2006
- Added more than 90 links to sequestration-related Websites. Now have more than 125 annotated links.

Stakeholder Registry

- 50 stakeholders have registered since the April CSLF meeting.
- 66 registered stakeholders, as of November 9, 2006 (includes three stakeholders which have requested not to be shown in the CSLF Website listing.)

Discussion Forum (Blog)

- Policy Group directed Secretariat at Delhi meeting to create online CSLF Discussion Forum to foster information exchange.
- Forum came online 9 November.
- Forum allows users to start discussion topics, post and read messages, and reply to the comments of others.

Project Selection Methodology

- Project Recommendation Guidelines were approved at 2004 Rome meeting.
- Project template approved at 2006 Delhi meeting.
- PIRT recommended a review of project criteria and metrics for assessing proposals at 2006 Delhi meeting.
- PIRT completed review and proposes project selection criteria (compiled in Secretariat paper).

CSLF Projects

- Six project templates have been received:
 - Alberta Enhanced Coal-Bed Methane Recovery Project
 - China Coalbed Methane Technology/CO₂ Sequestration Project
 - CO₂ Separation from Pressurized Gas Stream
 - Demonstration of Capture, Injection, and Geologic Sequestration of CO₂ in Basalt Formations in India
 - ITC CO₂ Capture with Chemical Solvents
 - Weyburn-Midale CO₂ Monitoring and Storage Project

CSLF Projects

➤ 11 project templates are still pending:

- CETC R&D Oxyfuel Combustion Project
- CASTOR
- CO₂ Capture Project
- CO₂ GeoNet Project
- CO₂SINK Project
- CO₂STORE
- ENCAP
- Frio
- Geologic Storage Assurance at In Salah Project
- Regional Carbon Sequestration Partnerships CSLF Project
- Regional Opportunities for CO₂ Capture and Storage in China Project

Key Activities

- Blog is operational. Everyone encouraged to read and post comments to build this into a widely used communications tool.
- CSLF Website continues to grow as a resource for sequestration community. Site contains more than 125 sequestration-related links.
