Secretariat Report to PIRT

CSLF Recognized Projects

- As of October 2016: 49 recognized projects
 - 34 were active; 15 have been completed
 - Wide geographical distribution: projects are located on five different continents
 - <http://www.cslforum.org/projects/>
- This meeting: 2 new projects proposed for CSLF recognition
 - Tomakomai CCS Demonstration Project
 - NET Power 50 MW_{th} Allam Cycle Demonstration Project

Secretariat Report to PIRT

Outcomes from London Meeting

- The 2017 CSLF Technology Roadmap (TRM) should incorporate outcomes from the COP21 meeting in Paris, and also other relevant types of technologies such as BECCS that were not mentioned in the 2013 TRM
- The TRM working group should change the structure of the TRM where needed.

Secretariat Report to PIRT

Outcomes from London Meeting

- The TRM working group should create a “technical needs” survey for obtaining pertinent information from existing projects, in order to assist the TRM rewrite effort.
- The TRM working group should compress its work plan timeline so that a final draft of the 2017 TRM would be published in time for the 2017 CSLF Mid-Year Meeting.

Secretariat Report to PIRT

Outcomes from London Meeting

- CSLF Secretariat and Dr. Greenberg (representing the CSLF-recognized Illinois Basin – Decatur Project) should jointly develop a useful format (neither superficial nor onerous) for CSLF-recognized projects to report their status.

Secretariat Report to PIRT

Outcomes from London Meeting

- PIRT delegates from Australia, Canada, and the United States should use the new project reporting format to engage projects located in their countries (approx. 4-8 projects in total) and prepare short status summaries in time for the 2016 CSLF Annual Meeting.
