FE DOCKET NO. 92-13-NG

ORDER AMENDING LONG-TERM AUTHORIZATION
TO IMPORT NATURAL GAS FROM CANADA

DOE/FE ORDER NO. 756-A

On April 28, 1994, Selkirk Cogen Partners, L.P. (Selkirk) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA)^{1/} and DOE Delegation Order Nos. 0204-111 and 0204-127, to amend its long-term import authorization issued December 22, 1992, in DOE/FE Order No. 756 (Order 756)^{2/}. Under the arrangement approved in Order 756, Selkirk is authorized to import near Waddington, New York, up to 55,000 Mcf per day of Canadian natural gas, over a period of 15 years beginning on the date of the first firm deliveries. The imports will supply the second phase of Selkirk's 252-megawatt cogeneration facility which is currently under construction in Selkirk, New York.

1/ 15 U.S. C. 717b.

2/ 1 FE 70,736.

Selkirk received authority in Order 756 to import the gas under contracts with three suppliers: ATCOR Ltd., Esso Resources Canada (Esso), and PanCanadian Petroleum Limited. Since Order 756 was issued, Esso has changed its name to Imperial Oil Resources.

Accordingly, pursuant to section 3 of the Natural Gas Act, Order 756 is amended to reflect this name change by substituting Imperial Oil Resources for Esso Resources Canada. In all other respects the earlier order shall remain in full force and effect.

Issued in Washington, D.C., on June 14, 1994.
