I. DESCRIPTION OF REQUEST \_\_\_\_\_

On June 28, 1996, Northstar Energy, Inc. filed an application with the Office of Fossil Energy of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA)<sup>1/</sup>, and DOE Delegation Order Nos. 0204-111 and 0204-127, requesting blanket authorization to import up to 10 MMcf<sup>2/</sup> per day of natural gas from Canada over a two-year term beginning on August 1, 1996. Northstar Energy, Inc., a Delaware corporation with its principal place of business in Calgary, Alberta, is a wholly owned subsidiary of Northstar Energy Corporation. Northstar Energy, Inc. requests authority to import this gas under spot and short-term sales arrangements. The specific terms of each import, including price and volume, would be negotiated at arms length in response to market conditions. The requested authorization does not involve the construction of new pipeline facilities.

II. FINDING \_\_\_\_\_

The application filed by Northstar Energy, Inc. has been evaluated to determine if the proposed import arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the importation of natural gas from a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas is deemed to be consistent with the public interest and must be

2. This volume is equivalent to 7.4 Bcf of natural gas over the two-year term.

granted without modification or delay. The authorization sought by Northstar Energy, Inc. to import natural gas from Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This blanket order authorizes transactions under contracts with terms of no longer than two years.

The reports shall also provide the details of each import transaction, including: (1) the name of the seller(s); (2) the name of the purchaser(s); (3) the estimated or actual duration of the agreement(s); (4) the name of the U.S. transporter(s); (5) the point(s) of entry; (6) the geographic market(s) served; (7) whether sales are being made on an interruptible or firm basis; and, if applicable, (8) the per unit (MMBtu) demand/commodity/reservation charge breakdown of the contract price.

D. The first quarterly report required by Ordering Paragraph C of this Order is due not later than October 30, 1996, and should cover the period from August 1, 1996 until the end of the third calendar quarter, September 30, 1996.

Issued in Washington, D.C., on July 12, 1996.
