FE DOCKET NO. 00-26-NG

ORDER GRANTING BLANKET AUTHORIZATION TO
IMPORT NATURAL GAS FROM CANADA

DOE/FE ORDER NO. 1591

MAY 10, 2000

I. DESCRIPTION OF REQUEST

On April 25, 2000, Chevron U.S.A. Inc. (Chevron) filed an application with the Office of Fossil Energy of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),^{1/} and DOE Delegation Order Nos. 0204-111 and 0204-127, for blanket authorization to import up to 18 billion cubic feet (Bcf) of natural gas from Canada over a period of two years beginning on July 1, 2000, and extending through June 30, 2002.^{2/} Chevron, a Pennsylvania corporation with its principal place of business in Houston, Texas, is a wholly-owned subsidiary of Chevron Corporation, a Delaware corporation with its principal place of business in San Francisco, California. Chevron requests authority to import this gas under spot and short-term sales arrangements, on its own behalf as well as on the behalf of others. The proposed authorization does not involve the construction of new pipeline facilities.

II. FINDING

The application filed by Chevron has been evaluated to determine if the proposed import arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import of natural gas from a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas is deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Chevron to import natural gas from Canada, a nation with which a free trade agreement is in effect, meets the section 3(c)

^{1/} 15 U.S.C. § 717b.

^{2/} June 30, 2000, is the expiration date of Chevron's existing blanket import authorization granted by DOE/FE Order No. 1383 dated May 8, 1998 (1 FE ¶ 71,559).

criterion and, therefore, is consistent with the public interest. This blanket order authorizes transactions under contracts with terms of no longer than two years.

ORDER

A. Chevron U.S.A. Inc. (Chevron) is authorized to import up to 18 billion cubic feet of natural gas from Canada over a period of two years beginning on July 1, 2000, and extending through June 30, 2002. This natural gas may be imported at any point on the international border between the United States and Canada.

B. With respect to the natural gas imports authorized by this Order, Chevron shall file with the Office of Natural Gas & Petroleum Import & Export Activities, within 30 days following each calendar quarter, reports indicating whether imports of natural gas have been made. Quarterly reports must be filed whether or not initial deliveries have begun. If no imports of natural gas have been made, a report of "no activity" for that calendar quarter must be filed. If imports have occurred, Chevron must report total monthly volumes in Mcf and the average purchase price of gas per MMBtu at the international border. The reports shall also provide the details of each import transaction, including: (1) the name of the seller(s); (2) the name of the purchaser(s); (3) the estimated or actual duration of the agreement(s); (4) the name of the United States transporter(s); (5) the point(s) of entry; (6) the geographic markets(s) served (by state); (7) whether sales are being made on an interruptible or firm basis; and, if applicable, (8) the per unit (MMBtu) demand/commodity/reservation charge breakdown of the contract price.

[OMB No.: 1901-0294]
