**ORDER GRANTING BLANKET AUTHORIZATION  
TO IMPORT NATURAL GAS FROM CANADA**

**DOE/FE ORDER NO. 1655**

**NOVEMBER 29, 2000**

## I. DESCRIPTION OF REQUEST

On November 29, 2000, Berkley Petroleum Corp. (Berkley) filed an application with the Office of Fossil Energy of the Department of Energy (DOE), under section 3 of the Natural Gas Act<sup>1/</sup> (NGA) and DOE Delegation Order Nos. 0204-111 and 0204-127, for blanket authorization to import up to 20 million MMBtu (approximately 20 Bcf) of natural gas from Canada over a two-year term beginning on December 1, 2000. Berkley, organized pursuant to the laws of the Province of Alberta, with its principal place of business in Calgary, Canada, is engaged in the exploration and development of natural gas and crude oil, and the marketing of petroleum and natural gas. Berkley has entered into transportation contracts for the movement of natural gas on the pipeline systems of Alliance Pipeline L.P.

## II. FINDING

The application filed by Berkley has been evaluated to determine if the proposed import arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import or export of natural gas from or to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas is deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Berkley to import natural gas from Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This blanket order authorizes transactions under contracts with terms of no longer than two years.
