FE DOCKET NO. 02-86-NG

ORDER GRANTING BLANKET AUTHORIZATION TO  
IMPORT AND EXPORT NATURAL GAS  
FROM AND TO CANADA

DOE/FE ORDER NO. 1834

DECEMBER 9, 2002

## I. DESCRIPTION OF REQUEST

On November 21, 2002, KeySpan-Ravenswood, LLC (KeySpan) filed an application with the Office of Fossil Energy of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),<sup>1/</sup> for blanket authorization to import and export up to a total of 44 billion cubic feet (Bcf) of natural gas from and to Canada over a two-year term beginning on June 1, 2003, and extending through May 31, 2005. KeySpan is a New York corporation with its principal place of business in Brooklyn, New York. Its parent company is KeySpan Corporation, the parent company of several gas utilities and one of the largest distributors of natural gas in the Northeast. KeySpan requests authorization to import and to export at any point on the international border at which existing United States transportation facilities accessible to KeySpan are located. The requested authorization does not require the construction of new pipeline facilities.

## II. FINDING

The application filed by KeySpan has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import or export of natural gas from or to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas is deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by KeySpan to import and export natural gas from and to Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This blanket order authorizes transactions under contracts with terms of no longer than two years.
