## I. DESCRIPTION OF REQUEST

On December 18, 2002, as amended on December 30, 2002, Bay State Gas Company (Bay State) filed an application with the Office of Fossil Energy of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),<sup>1/</sup> for authority to import up to 62,748 Dth (62,748 Mcf)<sup>2/</sup> per day of natural gas from Canada, under a gas sales agreement (sales agreement) with ENCANA Corporation. Bay State, a local distribution company with its principal office in Westborough, Massachusetts, is a wholly-owned subsidiary of NiSource, Inc. and an affiliate of Northern Utilities. Under the sales agreement, effective July 11, 2002, the initial term begins on January 15, 2003, and ends February 1, 2003. The primary term of the gas sales agreement is from February 1, 2003, until April 1, 2005. Bay State will use the gas as system supply to serve its customers in Maine and Massachusetts. The imported gas will enter the United States at the interconnection of the facilities of TransCanada Pipelines Limited and Tennessee Gas Pipeline at Niagara Falls, New York.

The price paid for the gas during the initial term is tied to a “Midpoint Price” as set forth in the “*Daily Price Survey*” published by *Gas Daily*, for deliveries at Niagara. The primary term price is tied to the “*Gas Daily Price Guide*” published monthly by *Gas Daily*, also for deliveries at Niagara in the applicable month.

On August 8, 2002, Bay State and Northeast Gas Markets, LLC (NEGM) entered into the an agreement in which NEGM will act as the administrative agent for all purposes of the gas sales agreement. The fee paid to NEGM is based on the daily contract quantity and the number of days in the month.
