ORDER GRANTING BLANKET AUTHORIZATION TO  
IMPORT AND EXPORT NATURAL GAS  
FROM AND TO CANADA, AND TO IMPORT  
LIQUEFIED NATURAL GAS FROM  
INTERNATIONAL SOURCES

DOE/FE ORDER NO. 2209

MAY 22, 2006

## I. DESCRIPTION OF REQUEST

On April 6, 2006, Anadarko Energy Services Company (AESC) filed an application with the Office of Fossil Energy of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),<sup>1</sup> for blanket authorization to import and export up to a combined total of 200 billion cubic feet (Bcf) of natural gas from and to Canada, and to import up to the equivalent of 200 Bcf of liquefied natural gas (LNG) from international sources. The applicant requests the authorization be granted for a two-year term beginning on May 1, 2006. AESC is a Delaware corporation with its principal place of business in The Woodlands, Texas.

## II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas, and the import of LNG, are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by AESC to import and export natural gas from and to Canada, a nation with which a free trade agreement is in effect, and to import LNG from international sources, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

AESC is also authorized to import up to the equivalent of 200 Bcf of liquefied natural gas (LNG) from various international sources. This authorization shall be effective for the two-year term which began on May 1, 2006, and extends through April 30, 2008.

B. This natural gas may be imported and exported at any point on the border between the United States and Canada.

Monthly reports must be filed whether or not initial deliveries have begun. If neither imports nor exports have been made, a report of "no activity" for that month must be filed. If imports or exports of natural gas have occurred, the report must give the following details: (1) for imports, country of origin; (2) for exports, the country of destination; (3) the point(s) of entry and exit; and (4) the total volume at each import or export point in thousand cubic feet (Mcf)
