POWEREX CORP.

FE DOCKET NO. 06-135-NG

ORDER AMENDING BLANKET AUTHORIZATION TO  
IMPORT AND EXPORT NATURAL GAS FROM AND TO  
CANADA AND MEXICO, AND TO IMPORT LIQUEFIED  
NATURAL GAS FROM VARIOUS INTERNATIONAL SOURCES

DOE/FE ORDER NO. 2320-A

On December 28, 2006, the Office of Fossil Energy (FE) of the Department of Energy (DOE) issued DOE/FE Order No. 2320 (Order 2320) which granted Powerex Corp. (Powerex) blanket authorization to import and export natural gas from and to Canada and Mexico, and to import liquefied natural gas (LNG) from various international sources, up to a combined total of 20 billion cubic feet (Bcf) over a two-year term beginning on March 1, 2007, and extending through February 28, 2009.<sup>1/</sup>

Ordering Paragraph A in Order 2320 inadvertently authorized the import and export of a combined volume amount of 20 Bcf of natural gas, including the import of LNG, instead of the requested combined volume amount of 60 Bcf. Also, Ordering Paragraph B states that this

<sup>1/</sup> Powerex's blanket authorization granted in DOE/FE Order No. 2320 on December 28, 2006, extends through February 28, 2009. (2 FE ¶ 71,401).

natural gas may be imported and exported at any point on the border between the United States and Canada. Ordering Paragraph B should state that this natural gas may be imported and exported at any point on the border between the United States and Canada, and the United States and Mexico.

Accordingly, Ordering Paragraph A is revised to substitute a combined volume amount of 60 billion cubic feet (Bcf) of natural gas, including LNG. Also, Ordering Paragraph B is revised to state that this natural gas may be imported and exported at any point on the border between the United States and Canada, and the United States and Mexico.

Issued in Washington, D.C., on March 8, 2007.
