INTERNATIONAL SOURCES AND TO EXPORT LIQUEFIED
NATURAL GAS TO MEXICO

DOE/FE ORDER NO. 2382-A

On July 26, 2007, the Office of Fossil Energy (FE) of the Department of Energy (DOE) issued DOE/FE Order No. 2382 (Order 2382) which granted Cambridge Energy, LLC (Cambridge) blanket authorization to import liquefied natural gas (LNG) from various international sources and to export LNG to Mexico, in a combined total amount up to the equivalent of 6.8 billion cubic feet (Bcf) of natural gas over a two-year term beginning on July 26, 2007, and extending through July 25, 2009.¹

¹/ Not yet published.

Ordering Paragraph A in Order 2382 inadvertently authorized the import of LNG from various international sources and the export of LNG to Mexico, in a combined total amount up to the equivalent of 6.8 Bcf over a two-year term, instead of the requested combined total volume amount of 24 Bcf.

Accordingly, Ordering Paragraph A is revised to substitute a combined total volume amount up to the equivalent of 24 billion cubic feet (Bcf) of natural gas.

Issued in Washington, D.C., on August 30, 2007.
