ORDER GRANTING BLANKET AUTHORIZATION TO
IMPORT AND EXPORT NATURAL GAS
FROM AND TO CANADA

DOE/FE ORDER NO. 2366

JUNE 19, 2007

I. DESCRIPTION OF REQUEST

On May 30, 2007, Chevron U.S.A. Inc. (Chevron) filed an application with the Office of Fossil Energy of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),¹ for blanket authorization to import up to 200 billion cubic feet (Bcf) of natural gas from Canada and export up to 200 Bcf of natural gas to Canada. The applicant requests the authorization be granted for a two-year term beginning on July 1, 2007.² Chevron is a Pennsylvania corporation with its principal place of business in San Ramon, California.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including liquefied natural gas (LNG), from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Chevron to import and export natural gas from and to Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

^{1/} 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for Fossil Energy pursuant to Redesignation Order No. 00.002.04C (January 30, 2007).

^{2/} Chevron's authorization to import and export natural gas granted by DOE/FE Order No. 2100 on June 8, 2005, extends through June 30, 2007 (2 FE ¶ 71,131).

ORDER

A. Chevron U.S.A. Inc. (Chevron) is authorized to import up to 200 billion cubic feet of natural gas from Canada and to export up to 200 billion cubic feet of natural gas to Canada pursuant to transactions that have terms of no longer than two years. This authorization shall be effective for a two-year term beginning on July 1, 2007, and extending through June 30, 2009.

Quarterly reports must be filed

whether or not initial deliveries have begun. If neither imports nor exports of natural gas have been made, a report of “no activity” for that calendar quarter must be filed. If imports or exports of natural gas have occurred, the report must give the details of each transaction, including: (1) the total monthly volumes in Mcf; (2) the average purchase price of gas per million British thermal units (MMBtu) at the international border; (3) the name of the supplier(s); (4) the name of the purchaser(s); (5) the estimated or actual duration of the supply agreement(s); (6) the name of the United States transporter(s); (7) the point(s) of entry or exit; and (8) for imports, the geographic market(s) served, by State.
