ORDER GRANTING BLANKET AUTHORIZATION TO
IMPORT AND EXPORT NATURAL GAS FROM AND TO
CANADA AND MEXICO, AND TO IMPORT LIQUEFIED
NATURAL GAS FROM VARIOUS INTERNATIONAL SOURCES

DOE/FE ORDER NO. 2528

AUGUST 18, 2008

I. DESCRIPTION OF REQUEST

On August 4, 2008, Macquarie Cook Energy, LLC (Macquarie) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),¹ for blanket authorization to import and export natural gas from and to Canada and Mexico, and to import liquefied natural gas (LNG) from various international sources, up to a combined total of the equivalent of 400 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on September 20, 2008.² Macquarie is a California corporation with its principal place of business in Los Angeles, California.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Macquarie to import and export natural gas from and to Canada and Mexico, nations with which a free trade agreement is in effect, and to import LNG from various international sources meets the section 3(c) criteria and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

¹/ 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for FE pursuant to Redeleation Order No. 00.002.04C (January 30, 2007).

²/ Macquarie's blanket authorization granted in DOE/FE Order No. 2256 on September 25, 2006, extends through September 19, 2008 (2 FE ¶ 71,330).
