ORDER GRANTING BLANKET AUTHORIZATION TO
IMPORT AND EXPORT NATURAL GAS
FROM AND TO CANADA

DOE/FE ORDER NO. 2558

SEPTEMBER 22, 2008

I. DESCRIPTION OF REQUEST

On September 5, 2008, Southern Connecticut Gas Company (Southern Connecticut) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),¹ for blanket authorization to import and export up to a combined total of 50 billion cubic feet (Bcf) of natural gas from and to Canada. The applicant requests the authorization be granted for a two-year term beginning on November 1, 2008.²

Southern Connecticut is a Connecticut corporation with its principal place of business in Bridgeport, Connecticut.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including liquefied natural gas (LNG), from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Southern Connecticut to import and export natural gas from and to Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

¹/ 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for FE pursuant to Redesignation Order No. 00.002.04C (January 30, 2007).

²/ Southern Connecticut was granted blanket authorization to import and export natural gas from and to Canada in DOE/FE Order No. 2273 on October 27, 2006, which extends through October 31, 2008 (2 FE ¶ 71,358).

B. This natural gas may be imported and exported at any point on the border between the United States and Canada.
