TO IMPORT NATURAL GAS FROM MEXICO

DOE/FE ORDER NO. 2634

APRIL 23, 2009

I. DESCRIPTION OF REQUEST

On April 13, 2009, LNG Partners, LLC (LNG Partners) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA),¹ for blanket authorization to import and export liquefied natural gas (LNG) from and to Canada and Mexico, to import LNG from various international sources, and to import natural gas from Mexico up to a combined total of the equivalent of 165 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on May 8, 2009.² LNG Partners is a Delaware corporation with its principal place of business in Houston, Texas.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by LNG Partners to import and export LNG from and to Canada and Mexico, to import LNG from various international sources, and to import natural gas from Mexico meets the section 3(c) criterion and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

¹/ 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for FE pursuant to Redlegation Order No. 00.002.04D (November 6, 2007).

²/ LNG Partners was granted blanket authorization to import liquefied natural gas from various international sources in DOE/FE Order No. 2348 on May 8, 2007, which extends through May 7, 2009 (2 FE ¶ 71,442).
