DOE/FE ORDER NO. 2664

JUNE 25, 2009

I. DESCRIPTION OF REQUEST

On June 9, 2009, Cambridge Energy, LLC (Cambridge) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),¹ for blanket authorization to import and export natural gas from and to Canada and Mexico, to export liquefied natural gas (LNG) to Canada and Mexico, and to import LNG from various international sources, up to a combined total of the equivalent of 48 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on July 26, 2009.² Cambridge is a Georgia corporation with its principal place of business in Atlanta, Georgia.

Additionally, on December 13, 2007, Cambridge was granted authorization in DOE/FE Order No. 2451 to import and export up to a combined total of 48 Bcf of natural gas from and to Canada and Mexico for a two year term beginning December 13, 2007, and extending through December 12, 2009 (2 FE ¶ 71,563). On July 11, 2009, Cambridge notified FE that the new authorization requested would encompass these volumes, as well as additional volumes of imports and exports of natural gas from and to Canada and Mexico. Therefore, Cambridge requests that DOE/FE Order No. 2451 be vacated, effective the date this Order is issued.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by

¹/ 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for FE pursuant to Redefinition Order No. 00-002.04D (November 6, 2007).

²/ Cambridge's blanket authorization to import LNG from various international sources granted in DOE/FE Order No. 2382 on July 26, 2007, and amended in DOE/FE Order No. 2382-A on August 30, 2007, extends through July 25, 2009 (2 FE ¶ 71,477 and 2 FE ¶ 71, 496, respectively).

section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Cambridge to import and export natural gas from and to Canada and Mexico, to export LNG to Canada and Mexico, and to import LNG from various international sources, meets the section 3(c) criteria and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.
