IMPORT AND EXPORT NATURAL GAS FROM AND TO CANADA
AND MEXICO, AND TO IMPORT LIQUEFIED NATURAL GAS
FROM VARIOUS INTERNATIONAL SOURCES

DOE/FE ORDER NO. 2675

JULY 24, 2009

I. DESCRIPTION OF REQUEST

On May 19, 2009, Pacific Summit Energy LLC (Pacific Summit) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),¹ for blanket authorization to import and export natural gas from and to Canada and Mexico, and to import liquefied natural gas (LNG) from various international sources, up to the equivalent of 600 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on August 1, 2009.² Pacific Summit is a Delaware corporation with its principal place of business in Newport Beach, California.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to nations with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and must be granted without modification or delay. This authorization sought by Pacific Summit to import and export natural gas from and to Canada and Mexico, and to import LNG from various international sources, meets the section 3(c) criteria and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

¹/ 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for FE pursuant to Redelelegation Order No. 00-002.04D (November 6, 2007).

²/ Pacific Summit's blanket authorization to import natural gas from Canada and Mexico, and to import LNG from various international sources granted in DOE/FE Order No. 2379 on July 17, 2007, extends through July 31, 2009. (2 FE ¶ 71,478).
