FE DOCKET NO. 09-127-NG

ORDER GRANTING BLANKET AUTHORIZATION TO
IMPORT NATURAL GAS FROM CANADA

DOE/FE ORDER NO. 2734

DECEMBER 3, 2009

I. DESCRIPTION OF REQUEST

On November 18, 2009, Irving Oil Terminals Inc. (Irving Oil) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA)¹ for blanket authorization to import up to 29 billion cubic feet (Bcf) of natural gas from Canada. The applicant requests the authorization be granted for a two-year term beginning on January 1, 2010². Irving Oil is a Delaware corporation with its principal place of business in Portsmouth, New Hampshire.

II. FINDING

The application has been evaluated to determine if the proposed import arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including liquefied natural gas (LNG), from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Irving Oil to import natural gas from Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criteria and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

¹/ 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for FE pursuant to Redelegation Order No. 00.002.04D (November 6, 2007).

²/ Irving Oil was granted blanket authorization to import natural gas from Canada by DOE/FE Order No. 2448 on December 5, 2007, which extends through December 31, 2009 (2 ¶ 71,561).

ORDER

Pursuant to section 3 of the NGA, it is ordered that:

A. Irving Oil is authorized to import up to 29 Bcf of natural gas from Canada pursuant to transactions that have terms of no longer than two years. This authorization shall be effective for a two-year term beginning on January 1, 2010, and extending through December 31, 2011.

B. This natural gas may be imported at any point on the border between the United States and Canada.

C. **Monthly Reports:** With respect to the natural gas imports authorized by this Order, Irving Oil shall file with the Office of Natural Gas Regulatory Activities, within 30 days following the last day of each calendar month, a report indicating whether imports of natural gas have been made. Monthly reports shall be filed whether or not initial deliveries have begun. If no imports have been made, a report of “no activity” for that month must be filed. If imports of natural gas have occurred, the report must give the following details: (1) the country of origin; (2) the point(s) of entry; (3) the volume in thousand cubic feet (Mcf); (4) the average purchase price of gas per million British thermal units (MMBtu) at the international border; (5) the name of the supplier(s); (6) the name of the U.S. transporter(s); (7) the estimated or actual duration of the supply agreement(s); and (8) the geographic markets(s) served (list State(s), U.S. Census Region(s), or general U.S. geographic area(s)).

[OMB No.: 1901-0294]

D. The first monthly report required by this Order is due not later than February 28, 2010, and should cover the reporting period from January 1, 2010, through January 31, 2010.
