ORDER GRANTING BLANKET AUTHORIZATION TO
IMPORT LIQUEFIED NATURAL GAS FROM
VARIOUS INTERNATIONAL SOURCES

DOE/FE ORDER NO. 2735

DECEMBER 14, 2009

I. DESCRIPTION OF REQUEST

On November 26, 2009, Eurojimm Oil & Gas USA, Inc. (Eurojimm) filed an application with the Office of Fossil Energy (FE) of the Department of Energy under section 3 of the Natural Gas Act (NGA),¹ for blanket authorization to import liquefied natural gas (LNG) up to the equivalent of 600 billion cubic feet (Bcf) of natural gas from various international sources. The applicant requests the authorization be granted for a two-year term beginning on the date this Order is issued. Eurojimm is a Maryland corporation with its principal place of business in Eldersburg, Maryland.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Eurojimm to import LNG from various international sources, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

¹/ 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for FE pursuant to Redlegation Order No. 00.002.04D (November 6, 2007).

B. This natural gas may be imported at any LNG receiving facility in the United States and its territories.

C. **Monthly Reports:** With respect to the import of LNG authorized by this Order, Eurojimm shall file with the Office of Natural Gas Regulatory Activities, within 30 days following the last day of each calendar month, a report indicating whether imports of LNG have been made. Monthly reports must be filed whether or not initial deliveries have begun. If no imports have been made, a report of “no activity” for that month must be filed.
