## **II. DESCRIPTION OF MACQUARIE ENERGY LLC**

Macquarie is a Delaware limited liability company with its principal place of business at Houston, Texas. Macquarie is an energy trading and marketing company whose activities include servicing natural gas producers, utilities, industrial users, and other large wholesale energy sector participants. Macquarie is a capacity holder at a liquefied natural gas (“LNG”) facility (not the facility at issue in this proceeding) located on the Gulf Coast.

## **III. FILING BY SABINE PASS**

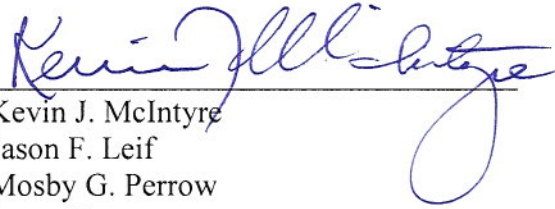

On September 7, 2010, Sabine Pass filed an application seeking long-term, multi-contract authorization to export up to 16 million mtpa of LNG for a 20-year period from the Sabine Pass LNG Terminal. Sabine Pass seeks authorization to export LNG to any country with which the United States does not have a Free Trade Agreement requiring the national treatment of trade in natural gas and LNG that has, or in the future develops, the capacity to import LNG and with which trade is not prohibited by U.S. law or policy.

## **IV. MOTION TO INTERVENE**

As an importer of LNG, a marketer of natural gas, and a holder of LNG terminal capacity, Macquarie has a direct and substantial interest in this proceeding, and its interests cannot be represented by any other party. Macquarie respectfully requests that it be permitted to intervene in this proceeding and be granted full rights to participate as a party.

Respectfully submitted,

MAQUARIE ENERGY LLC
