## General Comment

Please do not grant this permit. The U.S. needs to keep its natural resources, not sell them overseas. This type of corporate greed has to stop. This is yet another example of FLNG's practice of doing anything to make money. The pretreatment plant they are planning will destroy the environment of four neighborhoods. To put in the pretreatment plant to export the gas at the expense of everyone surrounding them, is just morally wrong and I strongly oppose it  
Nancy Laurie.
