Re: Solicitation of Comments
FE Docket No. 11-59-LNG
Lake Charles Exports, LLC
Application for Long Term Export of
Liquefied Natural Gas

Dear Mr. Anderson:

EXCO Resources wishes to express its support for approval of the referenced application. EXCO is a leading producer of natural gas in Louisiana and Texas and has a vested interest in natural gas marketing and exports. Lake Charles Export LNG terminal is a project that will benefit EXCO, the states of Texas and Louisiana, and the national interest by providing additional outlets for US-produced natural gas. By expanding the market for this product, the applicant will provide means for market stabilization and help ensure that natural gas remains a viable and economic resource for the country.

Other benefits of long term export of natural gas include increased construction and operating employment, the increased local tax base and state and federal tax collections, and increased US exports.

As this project is in the public interest, we urge that your office consider and approve the application of Lake Charles Exports, LLC. Thank you for your consideration.

Very truly yours,

A handwritten signature in black ink that reads "Stephen F. Smith". The signature is written in a cursive style with a large, stylized "S".
