To whom it may concern:

I am opposed to the application of Freeport LNG Docket FE-11-161 on the grounds that the application is inconsistent with the public interest. I do not feel as though this country should be exporting our natural resources while we continue to import resources from hostile countries. We need to keep our resources in this country to benefit the nation and its citizens. I ask that this application be denied as it works against the nation as a whole.

Sincerely,

Jim Rio
