Rec'd DOE/FE 3/6/12

John Anderson
Team Leader
Natural Gas Regulatory Activities
U.S. Department of Energy
1000 Independence Ave., SW
Washington, DC 20585

Dear Mr. Anderson:

Cambridge Energy, LLC (“Cambridge”) is an integrated energy solution for the supply, transmission, distribution, and shipping of liquefied natural gas (“LNG”) from the U.S. to remote markets. Cambridge filed its application for the export of natural gas to free trade agreement countries on February 28, 2012.

Our business development activities have led to an increase in the volume of natural gas we expect to export. As such, we request that the initial requested volume of 500,000 metric tons per annum be amended to 2 million metric tons of natural gas per annum (approximately 97.4 bcf per annum or .267 bcf per day).

Sincerely,

/s/

Sherman E. Bryant, CEO
Cambridge Energy, LLC
