RE: SB Power Solutions Inc.  
FE Docket 12-50-LNG  
Application for Long-Term Authorization to Export Liquefied Natural Gas  
to Free Trade Agreement Contracts

Dear Ms. Moore:

This letter is to clarify on behalf of SB Power Solutions Inc. ("SPS") that the above-referenced application for long-term authorization to export domestically-produced and previously imported liquefied natural gas is for a quantity of a total of 550,000 metric tons per year of LNG, which is the equivalent of approximately 26.78 billion cubic feet of natural gas or 27.40 Btu per year.<sup>1</sup>

Please consider this letter as a supplement to our Application.

Respectfully submitted,

David M. Becker  
Senior Vice President and General Counsel  
SEABOARD CORPORATION

---

<sup>1</sup> The conversion factors are assumed to be:

1. 48,690 standard cubic feet of natural gas per metric ton; and
2. the average heating value of U.S. natural gas is estimated to be 1,023 Btu per cubic foot (see page 44 of the DOE/EIA attachment).
