FE Docket No. 13-160-LNG

**MOTION TO INTERVENE OF
THE AMERICAN PETROLEUM INSTITUTE**

Pursuant to 10 C.F.R. 590.303, the American Petroleum Institute (“API”) files this motion to intervene in the above-captioned docket. In support, API states as follows.

I. COMMUNICATIONS

Any communications regarding this pleading should be addressed to:

Benjamin Norris
Senior Counsel
American Petroleum Institute
1220 L Street, N.W.
Washington, D.C. 20005
Telephone: 202.682.8000
NorrisB@api.org

II. BACKGROUND

On December 31, 2013, Texas LNG LLC (“Texas LNG”) filed an application with the Department of Energy’s Office of Fossil Energy (“DOE/FE”) seeking a long-term multi-contract authorization to export domestically produced liquefied natural gas (“LNG”) up to the equivalent of 0.275 billion cubic feet (“Bcf”) of natural gas per day to non-Free Trade Agreement (“non-FTA”) countries. The authorization is sought for Texas LNG on its own behalf and as agent for others for a 25-year period, commencing on the earlier of the date of first export or ten years from the date the authorization is issued. Texas LNG proposes to export LNG from its project site presently under development at the Port of Brownsville, in Brownsville, Texas, to any nation

that currently has or develops the capacity to import LNG, with which the United States does not have a FTA requiring national treatment for trade in natural gas or LNG and with which trade is not prohibited by U.S. law or policy. The deadline to intervene in the above-captioned proceeding is January 9, 2015.¹

III. INTERVENTION

API is a national trade association representing more than 600 member companies involved in all aspects of the oil and natural gas industry in the United States. Our members include owners and operators of LNG import and export facilities in the United States and around the world, as well as owners and operators of LNG vessels, global LNG traders, and manufacturers of essential technology and equipment used all along the LNG value chain. Our members also have extensive experience with the drilling and completion techniques used in shale gas development and in producing America's natural gas resources in a safe and environmentally responsible manner. API thus has a direct and immediate interest in this docket which cannot be adequately protected by any other party. Accordingly, API should be permitted to intervene in this docket with full rights as a party.

IV. CONCLUSION

For the reasons stated above, API respectfully requests that DOE/FE grant this timely motion to intervene and that API be accorded fully party status in any proceedings held by DOE/FE in this docket.

¹ 79 Fed. Reg. 66,708.

Respectfully submitted,

/s/ Benjamin Norris
