VARIOUS INTERNATIONAL SOURCES BY VESSEL

DOE/FE ORDER NO. 3255

MARCH 15, 2013

## I. DESCRIPTION OF REQUEST

On February 28, 2013, Gazprom Marketing & Trading USA, Inc. (Gazprom) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA)<sup>1</sup> for blanket authorization to import and export natural gas from and to Canada and Mexico, and to import liquefied natural gas (LNG) from various international sources by vessel up to a combined total of the equivalent of 730 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on April 17, 2013.<sup>2</sup> Gazprom is a Delaware corporation with its principal place of business in Houston, Texas.

## II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including liquefied natural gas (LNG), from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and applications for such imports and exports must be granted without modification or delay. The authorization sought by Gazprom to import and export natural gas from and to Canada and Mexico, nations with which free trade agreements are in effect, and to import LNG from various international sources, meets the section 3(c) criterion and, therefore, is consistent
