ORDER GRANTING BLANKET AUTHORIZATION TO  
IMPORT AND EXPORT LIQUEFIED NATURAL GAS  
FROM AND TO CANADA AND MEXICO BY TRUCK

DOE/FE ORDER NO. 3373

DECEMBER 19, 2013

I. DESCRIPTION OF REQUEST

On October 28, 2013, Macquarie Energy LLC (Macquarie) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA)<sup>1</sup> for blanket authorization to import and export liquefied natural gas (LNG) from and to Canada and Mexico by truck, up to a combined total of the equivalent of 500 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on February 1, 2014.<sup>2</sup> Macquarie is a Delaware limited liability company with its principal place of business in Houston, Texas.

II. FINDING

The application has been evaluated to determine if the proposed import and/or export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest, and applications for such imports or exports must be granted without modification or delay. The authorization sought by Macquarie to import and export LNG from and to Canada and Mexico by truck meets the section 3(c) criteria and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

---

<sup>1</sup> The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. §717b) has been delegated to the Assistant Secretary for FE in Redlegation Order No. 00-002.04F issued on July 11, 2013.

<sup>2</sup> Macquarie's blanket authorization to import and export natural gas from and to Canada and Mexico, to import LNG from Canada and Mexico by truck, to export LNG to Canada and Mexico by vessel, and to import LNG from various international sources by vessel, granted in DOE/FE Order No. 3046 on December 9, 2011, extends through January 31, 2014.
