As a former combat fighter pilot (F-105) I am very committed to a strong viable economy that will provide more well paying jobs for our veterans, minimize our trade deficit, and strengthen the security of our country. I agree with both Senator Murkowski of Alaska and Mayor Buck of the City of North Las Vegas that the expeditious approval of the LNG export applications is imperative if we are to successfully pull ourselves out of this recession.

I urge the DOE to take positive action and approve the pending LNG export applications. The growth and health of our national economy, national security, and national well being depend on it.

Thank you for your consideration.

Warmest regards

M. Favil West
