RE: Freeport LNG Expansion L.P. and FLNG Liquefaction, LLC
FE Docket No. 11-161-LNG

Dear Mr. Lo Baugh:

Pursuant to your request, filed April 27, 2012, and applicable regulations (10 CFR 590.303(e)), DOE has determined that good cause exists to grant Freeport LNG Expansion L.P. and FLNG Liquefaction, LLC a fifteen day extension of time in which to submit and serve its response to Sierra Club's Motion to Intervene, Protest, and Comments; Motion for Leave to Intervene and Protest of the American Public Gas Association; and the Motion to Intervene and Protest of the Gulf Coast Labor Coalition, submitted in the above-referenced docket on April 13, 2012. The additional time is warranted due to the complexity of the protests and comments. Accordingly, your request is hereby granted and the response to the referenced pleadings is due May 15, 2012.

Sincerely,

A handwritten signature in cursive script, appearing to read "John A. Anderson".

John A. Anderson,
Manager, Natural Gas Regulatory Activities
Office of Oil and Gas Global Security and Supply
Office of Fossil Energy
